

CITP & CBP POLICE PRECINCT OPENING

18 June 2018

ANICETO V. BISNAR

MESSAGE

Audience: LGU, Police Officials, Media, Estate Board

Duration: 3 – 5 minutes

Good morning.

Welcome to you all, and welcome to our line up of distinguished guests. *(Can enumerate VIPs present here)*

It gives me great pleasure to be opening this new addition to our estates – Cebu IT Park and Cebu Business Park.

As we create and maintain masterplanned, mixed-use developments, safety is always a priority so that our communities remain the preferred place to live, work, and do business in.

For over 10 years now, our estates' population has grown 10 percent a year on average. Today, Cebu IT Park and Cebu Business Park combined host a total of over 94,000 employees.

Reasons for the area's popularity include its lifestyle, distinct environment, convenience and the concentration of local and multi-national companies that generate high-value jobs.

As the population continues to grow, the emphasis on peace and order becomes even

more important. These police precincts will help maintain safety within the estates and its surrounding areas. Their proximity to major population areas will help authorities respond faster in the event of any emergency situations.

This facility will be complemented by the estates' respective emergency brigade teams, as well as our existing hotlines for the ease of access of those within the community.

I would like to thank everyone who has made this initiative possible – Ayala Land and Cebu Holdings for providing the space, the estate boards for donation of the structure, and the PNP for committing to provide personnel to man the precincts 24/7.

With this, we hope to be able to contribute to improving the peace and order situation of the area and the city as a whole.

Thank you and maayong buntag natong tanan.
